

BIOBORD
PLATFORM

The Biobord network invites you to the workshop
**“NEW TECHNOLOGIES FOR MONITORING OF LARGE-
BODIED WILD-ANIMALS AND FREE-RANGING LIVESTOCK:
CHALLENGES AND OPPORTUNITIES”**

- ▶ **5th of May 2021**
- ▶ ZOOM platform
- ▶ 9:00 – 13:00 / CET

Workshop purpose

- ▶ To share the experience on the use of drones and other remote sensing technologies for monitoring large-bodied wild animals and free-ranging livestock in Finland, Latvia, Norway and Poland.
- ▶ To discuss challenges and opportunities for technology adoption in wildlife management practice.
- ▶ To build a network for future transnational cooperation.

- ▶ **[Click here to register till 28th of April](#)**
